FIG. 1f

FIG. 9

FIG. 10

FIG. 11

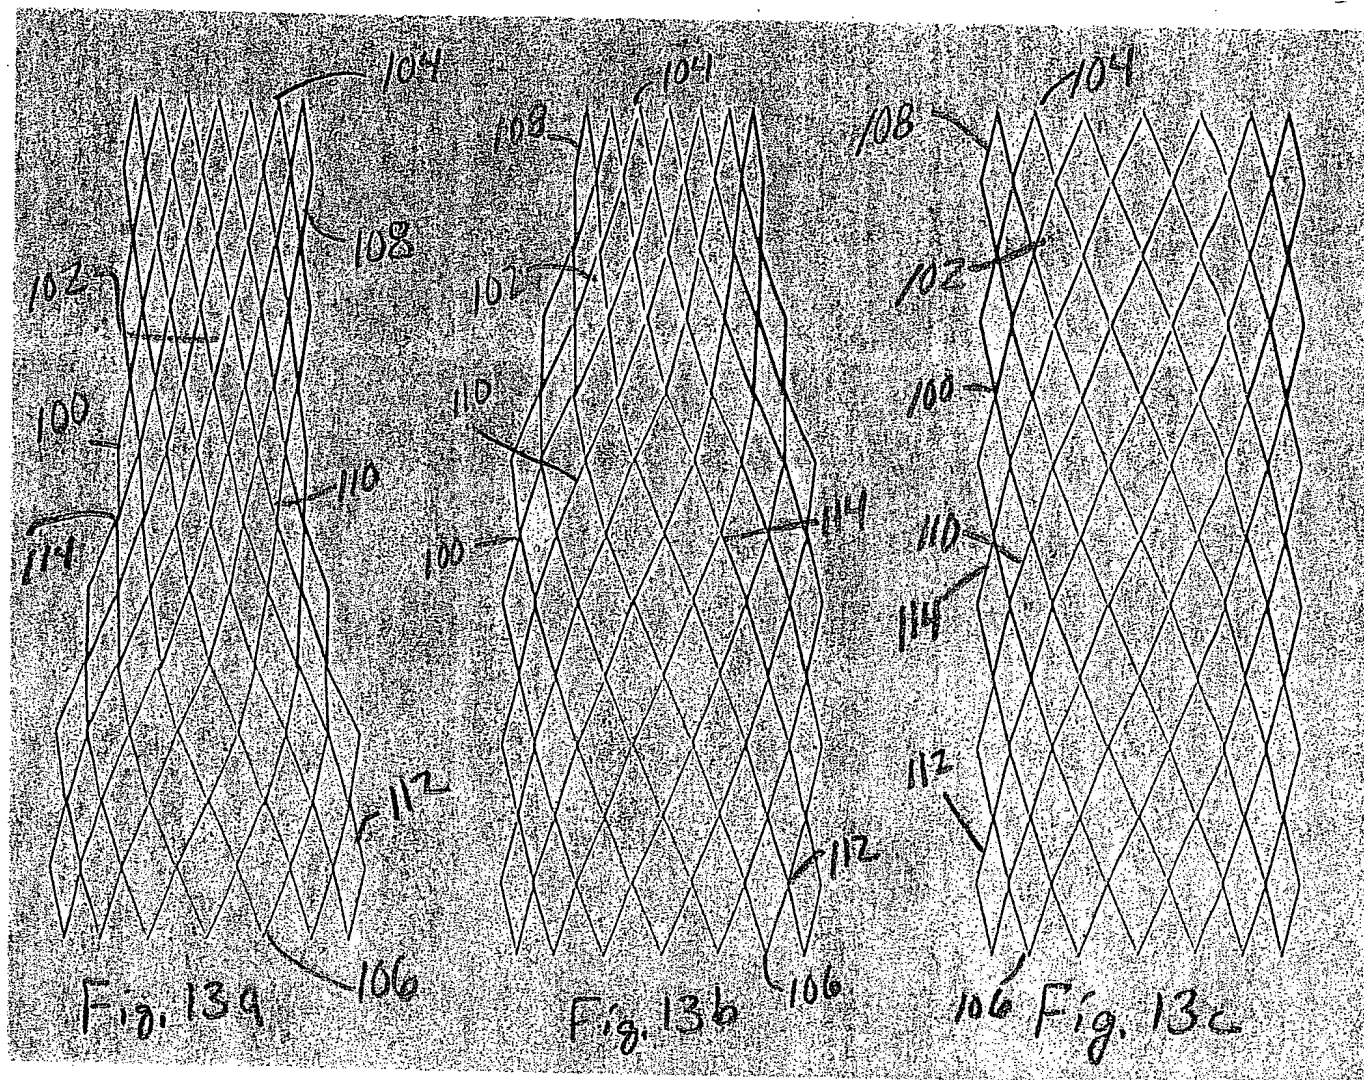

FIG. 12

Left Figure: Distal Portion of Stent is Thinner

Middle Figure: Stent Dilation Showing the Thinner Area Dilating First

Right Figure: From Bottom to Top Gradually Thicker Metal

*Fig. 14a*

*Fig. 14b*

Upper Balloon: Inflating with Distal End Opening First

Lower Balloon: Further Inflation of Balloon Showing Complete Inflation

Upper Balloon: Distal Inflating Balloon End  
Inflating First

Middle Balloon: Proximal End Inflating Second

Lower Balloon: Full Balloon Inflation

*Note: The Mid Picture Could Also Describe a "Septated" Balloon  
With Distal End Dilating First, Then Proximal End With  
No Inflation in the Mid Portion So No Debris Is Lost Down  
Stream*
